

Important Safety Notice

Warning to all battery collectors, handlers and sorters

DO NOT send lithium batteries to lead recyclers

Use an approved facility for treatment and recycling.

There is a serious RISK OF FIRE and EXPLOSIONS if lithium batteries enter the lead battery collection and recycling process

Batteries can appear similar so make sure lead and lithium batteries are IDENTIFIED and SORTED

Tips to identify battery types

Read the label - Look out for the **Pb** symbol on lead batteries or the **Li** symbol on lithium batteries. You may also be able to identify them by their manufacturer.

Notice the weight difference - Although they have similar dimensions lithium are much lighter than lead batteries.
